

Next Steps: AI Engineer Take-Home Assignment - Dscribe

Thank you for applying for the AI Engineer role at Dscribe (Unriddle Technologies).

The next step is a take-home assignment to build an agentic AI system that turns messy clinical source notes into a safe, structured discharge summary.

Part 1 is required. Part 2 is an optional stretch. AI coding assistants are allowed, but the candidate must be able to explain the submission.

Please do not use real patient data. Provided data is synthetic.
